BRANDENBURG TELEPHONE COMPANY

PART III
ORIGINAL SHEET 3

LOCAL EXCHANGE SERVICE TARIFFS

APPLICATION AND EXPLANATION OF SYMBOLS

A. APPLICATION

These Tariffs apply to the Local Telephone Exchange Services of the Brandenburg Telephone Company, hereinafter referred to as the Telephone Company in its exchanges as follows:

<u>Exchange</u>	<u>County</u>
<u>Brandenburg</u>	<u>Meade</u>
<u>Battletown</u>	<u>Meade</u>
<u>Paynesville</u>	<u>Meade</u>
<u>Garrett</u>	<u>Meade</u>
<u>Irvington</u>	<u>Breckinridge</u>
<u>Custer</u>	<u>Breckinridge</u>
<u>Radcliff</u>	<u>Hardin</u>
<u>Vine Grove</u>	<u>Hardin</u>

The provision of service is also subject to the Rates, Charges, Rules and Regulations in Parts I, II, and IV of these Tariffs of the Telephone Company, which Parts as they now exist or as they may be revised, added to, or supplemented by superseding issues are hereby made a part of these Local Exchange Service Tariffs.

These Tariffs cancel and supersede all other Tariffs of the Telephone Company issued and effective prior to the effective date of these Tariffs.

PART III
TENTH REVISION SHEET 5

LOCAL EXCHANGE SERVICE TARIFFS - BRANDENBURG EXCHANGE

I. GENERAL

- A. This Tariff is governed, except as otherwise specified herein, by the General Rules and Regulations P.S.C. KY NO. 2 and the General Exchange Tariffs P.S.C. KY NO. 2 which are hereby made a part of this Tariff. Unless otherwise specified the charges quoted in this Tariff, or in the General Rules and Regulations and General Exchange Tariffs are for periods of one month, are payable monthly and entitle the customer to network access exchange telephone service within the Brandenburg exchange. That exchange being the NPA 270 and NXX 422.
- B. The rates quoted herein also entitle the subscribers of this exchange to call, without additional charge, subscribers with the NPA of 270 and the NXX of 496, 497, 536, 547, 668, 828, and 863. (T)
Also NPA 502 NXX of 624, 626, 799, 942, and 943. (T)

II. RATES

- A. Within the base Rate Area as specified on First Revision Sheet 5.1, PART III

CLASS OF SERVICE			
	Individual Line Network Access	Two-Party Line Network Access	Four-Party Line Network Access
Business	\$ 8.40	NONE	
Residence	\$ 5.60	NONE	

- B. Outside the Base Rate Area but within the Exchange Area as specified on SECOND REVISION SHEET 5.2, PART III.

CLASS OF SERVICE		
Service Listed in II-A Above		
	Network Access	Rural Four-Party Network Access
Business	Same rate as in par. II-A above plus excess mileage	NONE
Residence	Same rate as in par. II-A above plus excess mileage	NONE

MESSAGE TOLL TELEPHONE SERVICE
INTRASTATE

I. APPLICATION OF TARIFF

A. This Tariff applies to message toll telephone service furnished or made available by the Telephone Company over facilities wholly within or partly within and partly without the State of Kentucky, between two or more points within the State of Kentucky, where the respective rate centers of such points are also located in said State.

1. Toll rates ascertained as herein outlined are the effective rates applicable.

B. Explanation of Symbols

- (C) Signifies a changed regulation
- (D) Signifies a discontinued rate, treatment or regulation
- (I) Signifies an increased rate or new treatment resulting in increased rate
- (N) Signifies a new rate, treatment or regulation
- (R) Signifies a reduced rate or new treatment resulting in reduced rate
- (T) Signifies a change in text but no change in rate, treatment or regulation

II. GENERAL REGULATIONS

A. Definition

Message toll telephone service is that of furnishing facilities for telephone communication between telephones in different local service areas in accordance with the regulations and system of charges specified in this Tariff. The toll service charges specified in this Tariff are in payment for all service furnished between the calling and called telephones.

B. Undertaking of the Telephone Company

The Telephone Company does not undertake to transmit messages, but offers the use of its facilities for communications between its customers.

DATED March 24, 1961.

BRANDENBURG TELEPHONE COMPANY

PART IV
ORIGINAL SHEET 4

MESSAGE TOLL TELEPHONE SERVICE

INTRASTATE

II. GENERAL REGULATIONS (Continued)

C. Priority of Service

In case a shortage of facilities exists at any time, either for temporary or protracted periods, the establishment of message toll telephone service shall take precedence over all others.

D. Limited Conversation

The Company reserves the right to limit the length of conversation when necessary in times of emergency resulting in a shortage of facilities.

E. Liability of Telephone Company

1. In view of the fact that the customer has exclusive control of his communications over the facilities furnished him by the Telephone Company, and of the other uses for which facilities may be furnished him by the Telephone Company, and because of unavoidableness of errors incident to the services and to the use of such facilities of the Telephone Company, the services and facilities furnished by the Company are subject to the terms, conditions, and limitations herein specified.
2. The liability of the Telephone Company for damages arising out of mistakes, omissions, interruptions, delays, or errors or defects in transmission occurring in the course of furnishing service or other facilities and not caused by the negligence of the customer, shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission occurs. No other liability shall in any case attach to the Telephone Company.
3. When the lines of other telephone companies are used in establishing connections to points not reached by the Telephone Company's lines, the Telephone Company is not liable for any act or omission of the other company or companies.

ISSUED April 12, 1961 EFFECTIVE March 24, 1961 *CAB*

ISSUED BY - BRANDENBURG TELEPHONE COMPANY

DATED March 24, 1961.

BRANDENBURG TELEPHONE COMPANY

PART IV
ORIGINAL SHEET 5

MESSAGE TOLL TELEPHONE SERVICE
INTRASTATE

II. GENERAL REGULATIONS (Continued)

F. Obligation of the Customer

1. The calling party (or customer) shall establish his identity in the course of any communication as often as may be necessary.
2. The calling party (or customer) shall be solely responsible for establishing the identity of the person or persons with whom connection is made at the called station.

G. Advance Payments

1. Applicants for service who have no account with the Telephone Company or whose financial responsibility is not a matter of general knowledge, may be required to make an advance payment at the time the application is signed, equal to any construction charges applicable and at least one month's estimated charges for the service provided.
2. The amount of the advance payment is credited to the customer's account as applying to any indebtedness under the contract.

H. Payment for Service

The customer is required to pay all charges for service in accordance with the Telephone Company's regular billing and collection practices.

I. Deposits

The Telephone Company may, in order to safeguard its interest, require an applicant or a customer to make a suitable deposit to be held by the Telephone Company as a guarantee of the payment of charges. The fact that a deposit has been made in no way relieves the applicant or customer from complying with the Telephone Company's regulations as to advance payments and the prompt payment of bills on presentation. At such time as the contract is terminated, the amount of the deposit is credited to the customer's account and any credit balance which may remain is refunded. At the option of the Telephone Company, such a

II. GENERAL REGULATIONS (Continued)

deposit may be refunded or credited to the customer at any time prior to termination of the contract. In case of a cash deposit, simple interest at the legal rate is paid for the period during which the deposit is held by the Telephone Company, provided the period is thirty days or more.

J. Cancellation for Cause

Upon non-payment of any sum due the Telephone Company or upon a violation of any of the conditions governing the furnishing of a service or upon the use of any service for the purpose of performing any service in competition with the service which the Telephone Company or its connecting carriers may now or hereafter furnish, the Telephone Company may, by notice in writing to the customer without incurring any liability, forthwith discontinue the furnishing of said service and terminate the contract.

K. Telephotograph Equipment Provided by the Press

1. Message toll telephone service is available for use by the Press for the transmission and reception of pictures, and similar material for publication, by means of telephotograph equipment provided by the Press.
2. No direct physical connection of the telephotograph equipment shall be made to the facilities of the Telephone Company or its Connecting Companies, except where special equipment is provided by the Telephone Company or a Connecting Company for this purpose.
3. The telephotograph equipment shall be of a type approved by the Telephone Company, and its operating characteristics shall be such as not to interfere with any of the services offered by the Telephone Company.
4. The Telephone Company assumes no responsibility for the quality of or defects in the material transmitted or received over the message toll connection regardless of cause.

MESSAGE TOLL TELEPHONE SERVICE

INTRASTATE

II. GENERAL REGULATIONS (Continued)

5. The customer indemnifies and saves the Telephone Company harmless against claims for libel, slander or the infringement of copyright arising from the material transmitted over the facilities; against claims for the infringement of patents arising from combining with, or using in connection with, facilities of the Telephone Company, apparatus and systems of the customer; and against all other claims arising out of any act or omission of the customer in connection with the facilities provided by the Telephone Company.
6. The regulations and rates for each call made for the purpose of transmitting pircures are those applicable for message toll telephone service, i.e., station-to-station, person-to-person or conference, according to the connection established.

L. Application of Construction Charges

When special construction for individual customers is necessary, special construction charges may apply as set forth in the Construction and Installation Charges part of the General Exchange Tariff.

BRANDENBURG TELEPHONE COMPANY

PART IV
ORIGINAL SHEET 8

MESSAGE TOLL TELEPHONE SERVICE

INTRASTATE

III. TWO POINT SERVICE

A. Classes of Service

Two classes of message toll telephone service are offered, namely, station-to-station service and person-to-person service.

(L)

B. Station-to-Station Service

Station-to-Station service is that service under which the person originating the call gives only the telephone number of the station or branch exchange system desired or the name and address under which the telephone is listed and does not specify a particular person or branch exchange station to be reached at the called point.

C. Person-to-Person Service

Person-to-Person service is that service under which the person originating the call specifies a particular person to be reached at the called point or a particular station, department, office or branch reached through a branch exchange:

1. Where the person originating the call wishes arrangements made in advance with a particular party or station for the establishment of a connection at a specified time (appointment call), the call is classified as person-to-person.
2. When it is necessary for the Telephone Company to employ a messenger or other means to bring the called party to a telephone associated with the Telephone Company or its connecting carriers, the call is classified as person-to-person and, in addition to the charges for the message, a charge is made for the exact amount expended, if any, for messenger service.

SECOND REVISIONS SHEET 14

C. RATES

1. General Services

The Brandenburg Telephone Company will make available to mobile telephone customers central office switching of calls between a mobile telephone terminal and other wire line telephone customers. The Mobile Telephone Customer shall be treated as any other customer of the telephone company in regards to amount of deposit, directory listing and non-payment of charges. Those regulations shown elsewhere in this tariff. This switching service is for IMTS only and does not apply to switching of cellular radio service. (T)

2. (D)

3. (D)

4. Installation and Move Service Charges

Charges for connecting, disconnecting of central office service, changing of directory listing, collecting of late or non-payment shall be those service charges as shown elsewhere in this tariff. (T)

5. Charges for Wire-Line Service

Each mobile customer uses one line position and one directory number, this is the same amount of equipment as used by any one party customer. Therefore, the rate per month shall be the same as the one party business network access line as shown in PART III of this tariff. (T)

SECTION VI
ORIGINAL SHEET 12

METROPOLITAN PAGING SERVICE

CENTRAL OFFICE SWITCHING EQUIPMENT FOR RADIO COMMON
CARRIER PAGING SYSTEMS

A. GENERAL

The Brandenburg Telephone Company will make available to Radio Common Carrier Customers (Hereafter known as RCC) blocks of telephone numbers for assignment to one-way paging receivers subject to the following conditions and limitations which they (The Brandenburg Telephone Co.) or an appropriate regulatory body deem to be in the interest of the telephone using public.

- (1) Number assignments will be made immediately if the currently installed equipment and scheduled equipment additions are adequate to meet both basic telephone service needs and RCC needs throughout the normal provisioning intervals in the central office selected.
- (2) Where currently installed and scheduled equipment is not adequate to meet both anticipated basic telephone service and RCC needs, number assignment may be temporarily delayed pending additional equipment installation.
- (3) In areas where the provision of numbers requires the installation of major quantities of new equipment, it may be necessary to defer the assignment of telephone numbers beyond the normal interval described above. In all instances, the telephone company may reserve sufficient quantities of telephone numbers to assure their ability to meet all anticipated exchange telephone service demands.
- (4) In the event adequate capacity is not available as described above, alternative serving arrangements from other central offices may be provided subject to agreement of all parties.
- (5) In multi-central office exchanges, the telephone company reserve the right to select the particular central office building and equipment unit from which to serve a specific RCC.
- (6) A block of numbers will not be reserved for an individual RCC. An individual central office code will, in most cases, be shared by an RCC with other telephone company services and/or other RCCs.

SECTION VI
ORIGINAL SHEET 13

METROPOLITAN PAGING SERVICE

CENTRAL OFFICE SWITCHING EQUIPMENT FOR RADIO COMMON
CARRIER PAGING SYSTEMS (Continued)

A. GENERAL (Continued)

- (7) The provision of telephone numbers to RCC is limited to no more than two numbers per paging receiver. This limitation is necessary to preclude excessive allocations of numbers for purposes other than the establishment of a communication path between communication terminal devices and to avoid the costs associated with creation of additional numbers. (N)
- (8) Due to the nature of the service it would be of no benefit to RCC or the telephone company to list RCC assign numbers in the white or yellow pages of the telephone directory. Therefore, none will be permitted.
- (9) Applications for service, deposit requirement, payment of bill, credit for out of service, disconnect for non-payment shall be handled in the manner described elsewhere in these tariffs.
- (10) Central office facilities and blocks of telephone numbers provided by the telephone company for RCC shall be assigned by the telephone company and may be changed to meet the reasonable operating and service requirements of the telephone company. RCC shall not acquire any proprietary interest in numbers assigned for its use. Where such changes are to be made, the telephone company shall advise RCC in writing not less than sixty days in advance and will coordinate the changes with RCC.

B. INTERCEPT AND ACKNOWLEDGEMENT OF CALLS BY RCC

- (1) RCC shall provide a voice intercept announcement to the calling party when a call is directed to a number that is not assigned by RCC.
- (2) RCC shall provide a voice announcement or distinctive tone signals to the calling party when a call intended to activate a signal in a paging receiver has been received and accepted by RCCs terminal. (N)

METROPOLITAN PAGING SERVICE

CENTRAL OFFICE SWITCHING EQUIPMENT FOR RADIO COMMON
CARRIER PAGING SYSTEMS (Continued)

B. INTERCEPT AND ACKNOWLEDGEMENT OF CALLS BY RCC (Continued)

- (3) RCC shall return to the central office over the loop trunk an answered condition when a call intended to activate a signal in a paging receiver has been received and accepted by RCC's terminal.
- (4) When RCC's terminal is not able to complete calls because of a malfunction in the terminal or other equipment, RCC shall divert the call to its operator, or provide a recorded announcement to the calling party advising that the call cannot be completed.
- (5) RCC shall provide supervisory tones or voice announcements to the calling party on all calls, consistent with standard telephone industry practices.

(N)

C. TROUBLE REPORTING AND TESTING PROCEDURES

- (1) Subscribers of RCC shall be instructed to report all cases of trouble to the RCC. RCC shall handle the trouble reporting and advise the telephone company.
- (2) When the RCC reports a trouble condition, it will first have used its best efforts to isolate the trouble to the telephone company's facilities. It will also advise the telephone company of the usage sensitivity of the circuit and the need for expedited clearance.
- (3) The telephone company and RCC will make cooperative tests, as appropriate, to eliminate the necessity for either party to dispatch repair forces needlessly to distant unattended locations merely to isolate the trouble.
- (4) A charge shall apply when RCC requests a service call for repairs and the telephone company's facilities are not to be causing the trouble. That charge appears in Part II, Sheet 9A of this Tariff.

SECTION VII
ORIGINAL SHEET 3

A. APPLICATION OF TARIFF

1. This tariff applies to custom calling services furnished by the Brandenburg Telephone Company.

B. REGULATIONS

1. Definitions

- a. Custom Calling Services are optional services offered in addition to regular exchange service to those subscribers served by central offices so arranged to provide such services. The number of Custom Calling Service features available depends upon the type of exchange central office providing the service and is subject to the availability of facilities.

- b. Custom Calling Services include the following:

(1) Call Forwarding

An arrangement whereby incoming calls may be transferred to another telephone number by dialing a code and the telephone number of the service to which calls are to be transferred. Calls forwarded by this feature are subject to all applicable local and long distance charges. These calls are also subject to transmission limitations.

(2) Call Waiting

A subscriber who is using an exchange line arranged for Call Waiting is alerted, by means of a tone signal, when another caller is trying to reach that line. Depressing the receiver switchhook will "hold" the first call so that the waiting call can be answered. Alternation between calls is accomplished by depressing the receiver switchhook.

ISSUED August 29, 1980 EFFECTIVE September 29, 1980

ISSUED BY - BRANDENBURG TELEPHONE COMPANY

BY *J. D. T. [Signature]* Manager, Brandenburg, KY.

BRANDENBURG TELEPHONE COMPANY

SECTION VII
ORIGINAL SHEET 4

B. REGULATIONS (continued)

1. Definitions (Continued)

b. (Continued)

(3) Call Conference - Three-Way Calling

Permits an existing call to be held and a second call to be established and added to the connection for conferencing. Conference calls made with this service are subject to transmission limitations and should include only one toll call.

(4) Speed Calling

Provides for the calling of a regular telephone number by dialing an abbreviated code. Two arrangements are available, either an 8-code capacity or a 30-code capacity, but not both on the same line. Up to 16 digits may be stored for each telephone number.

2. Conditions

- a. Custom Calling features are furnished in association with individual line service only. All features except Call Waiting are also available to Key or Multiline Systems on an individual line basis.
- b. Custom Calling features may be provided in connection with foreign exchange service.
- c. Custom Calling features are not available on any Private Automatic Branch Exchange System.

ISSUED by Authority of an order of the Public Service Commission in Case No. ADM 251-3

DATED March 31, 1983, 19

CATV POLE ATTACHMENT TARIFFS

A. GENERAL

The Brandenburg Telephone Company will make available to CATV Systems space on the poles of The Brandenburg Telephone Company. This space is subject to the following conditions and limitations which they (The Brandenburg Telephone Company) or appropriate regulatory body deem to be in the interest of the telephone using public. The CATV system shall be considered to be a customer or subscriber of The Brandenburg Telephone Company and shall be subject to other parts and sections of this Tariff.

1. Before making attachment to any pole or poles of the telephone company, CATV shall make application and receive a permit. Before a permit can be issued the telephone company may impose a bonding or insurance requirement to assure safe and adequate construction and operating practices on the part of the CATV operator.
2. The application for permit shall consist of drawings and associated descriptive matter which shall be adequate in all detail to enable the telephone company to thoroughly check the proposed installation of the CATV operator.
3. When the application for a permit requires the telephone company to do any work to make room for the CATV facilities on the telephone company's poles, the CATV operator will reimburse the telephone company for the entire nonbetterment portion of the cost and expense thereof, including the walk through inspection, engineering, staking, the cost of the larger poles, sacrificed life value of poles removed, cost of removal and the expense of transferring telephone company's facilities from the old to the new poles.
4. Where CATV's desired attachments can be accommodated on present poles of the telephone company by rearranging telephone company facilities thereon, the CATV operator will compensate the telephone company for full expense incurred in completing such rearrangements. The CATV operator will also reimburse the owner or owners of other facilities attached to said poles for any expenses incurred by it or them in transferring or rearranging said facilities.
5. The CATV operator will reimburse the telephone company for the expense within ten (10) days after receipt of the telephone company's invoice for such expenses.

CATV POLE ATTACHMENT TARIFFS (Continued)

A. General (continued)

- (N)
6. This tariff applies to CATV operators only. This tariff is not applicable to any other individual, firm or corporation.
 7. The CATV operator will provide and keep in effect, by an insurance company authorized to do business in the Commonwealth of Kentucky, the following:
 - a. Insurance protection for its employees to the extent required by Workmen's Compensation Law of Kentucky.
 - b. Public liability insurance with coverage for any town, city or area in which the CATV operator operates under this tariff to a minimum amount of \$200,000.00 for each person and \$500,000.00 for each accident for personal injury or death, and \$100,000.00 as to the property of any one person, and \$200,000.00 as to any one accident for property damage. Before beginning operations under this tariff, the CATV operator shall cause to be furnished to the telephone company a certificate from such insurance company evidencing the existence of such insurance.
 8. Should the work load of telephone company crews become so great that a choice had to be made where to do "make ready" work for the CATV operator or do work to provide telephone service, the telephone company reserves the right to do telephone related work first.
 9. Brandenburg Telephone Company does not have any conduit, therefore none can be offered to CATV operators for their use.

B. CONSTRUCTION AND MAINTENANCE

1. The CATV operator's cables, wires and appliances, in each and every location, shall be erected and maintained in accordance with the requirements and specification of the National Electrical Safety Code, 1977 Edition, or any amendments or revisions of said code and in compliance with any other codes, rules or orders now in effect or that hereafter be issued by the Public Service Commission or other authority having jurisdiction. (N)
 2. The CATV operator shall place its wires, cables and appliances not less than one (1) foot ABOVE existing telephone facilities.
 3. The CATV operator shall at its own expense, make and maintain attachments in a safe condition and in thorough repair, and in a manner suitable to the telephone company, or by other persons, firms, corporations, governmental units, etc., using said poles, pursuant to any license or permit of the telephone company, or interfere with the working use of facilities there or which may, from time to time, be placed thereon.
 4. The CATV operator shall at any time, at its own expense, upon forty-eight (48) hour notice from the telephone company relocate, replace or renew its facilities placed on said poles, and transfer them to substituted poles, or perform any other work in connection with said facilities that may be required by the telephone company. In cases of an emergency situation, immediate action may be required of the CATV operator without the forty-eight (48) hour notice.
 5. If the CATV operator is unable or unwilling to meet the telephone company's time schedule for such changes, the telephone company may do the work and charge the CATV operator its reasonable cost for performing the change of CATV attachments.
 6. In cases of broken or damaged poles, the telephone company shall not be required or expected to clear traveled portions of public highways or private property of CATV wires and cables.
 7. To prevent lightning damage and to promote safety, the last company installing a support messenger on a pole shall bond to the the existing support messenger of the other company. This bonding requirement will be at least once ever fifteen hundred (1500) feet of messenger length. (N)

B. CONSTRUCTION AND MAINTENANCE (Continued)

8. The telephone company reserves to itself, its successors and assigns, the right to maintain its poles and to operate its facilities thereon in such manner as will, in its judgement, best enable it to fulfill its own service requirements. (N)
9. The CATV operator shall submit to the telephone company evidence, satisfactory to the telephone company, of the CATV operator's authority to erect and maintain its facilities within public streets, highways and other thoroughfares within the territory which is to be served and shall secure any necessary consent by way of easement franchise or other satisfactory license, permit or authority acceptable to the telephone company from State, County or municipal authorities or the owners of property where necessary to construct and maintain facilities at the location of poles of the telephone company which it desires to use. The CATV operator shall at its cost and expense, compensate or otherwise satisfy or compromise the claim of any person or entity that may claim CATV operator's facility constitutes an additional servitude.
10. The telephone company, because of the importance of its service, reserves the right to inspect each new installation of the CATV operator on its poles and in the vicinity of its lines or equipment and to make periodic inspections, as plant conditions warrant, of the entire plant of the CATV operator. The original inspection shall be on a per cost basis and there shall be no cost for the periodic inspection.
11. When substandard installations are found which are not created by the telephone company but by the CATV operator, the telephone company will charge the CATV operator for cost of correcting them.
12. The CATV operator shall not attach to any pole hardware of the telephone company for supporting of any CATV wires or cables.
13. The CATV operator shall not attach to any anchor or guy of the telephone company, but shall install its own anchors and guys on any dead end or any angle of any degree. (N)

CATV POLE ATTACHMENT TARIFFS (Continued)

C. RATES

1. Since it has been determined by the Commission that the CATV operator is a customer of the telephone company, they (the CATV operators) shall be billed like other customers of the telephone company. The CATV operator shall be billed per month and subject to the same penalties and late charges as other customers of the telephone company. (N)
2. The CATV operator shall report to the telephone company each month the number of new attachments and the number of attachments removed. A service ordering charge (as shown elsewhere in this tariff) shall be applicable when a change in the billing record is required.
3. Any attachment found not reported will be considered to have been installed the next day after the last inspection and a back bill of two times the monthly rate will be rendered. Any "make ready" work required for attachments not reported will be billed two times the actual cost.
4. A two-user pole is a pole used by the telephone company and one or more CATV operators. With each CATV operator paying a two-user rate.
5. A three-user pole is a pole used by the telephone company, a power company, and one or more CATV operators with each CATV operator paying a three-user rate.
6. The following rates shall apply per month:

a. two-user pole	\$.23	per month
b. three-user pole	\$.17	per month

CATV POLE ATTACHMENT TARIFFS (Continued)

D. NON-PAYMENT

1. The CATV operator's late payment or non-payment of bill will be handled in the following manner: (N)
- A charge of 10% will be added to all bills not paid in twenty (20) days after issue. (Same as other customers of the telephone company)
 - The standard form late notice will be mailed at this time.
 - If after five (5) days from date late notice is mailed the bill is still unpaid, a representative of the telephone company will be dispatched to the local office of the CATV operator to collect the bill. (A collection charge will be applicable for this trip as shown elsewhere in this tariff.)
 - If there is no local office of the CATV operator, a registered letter will be mailed to the regular billing address. (A collection charge will be applicable for preparing and mailing this letter as shown elsewhere in this tariff).
 - If the bill is still unpaid, this same procedure will be repeated each month with all late charges and collection charges accumulating until four (4) months has elapsed.
 - At the end of the four (4) months, a thirty (30) day written notice will be sent to the Public Service Commission by registered mail with a copy to the CATV operator.
 - At the end of thirty (30) days, if the bill is still unpaid, the telephone company will remove all of the CATV operator's wires, cables and appliances from the poles of the telephone company with the removal cost being added to the CATV operator's final bill.

CLASS SERVICES

A. APPLICATION OF TARIFF

1. This tariff applies to "CLASS Services" furnished by the Brandenburg Telephone Company.

B. REGULATIONS

1. Definitions

- a. CLASS services are optional services offered in addition to regular exchange service to those subscribers served by central offices so arranged to provide such services. The number of CLASS Service features available depends upon the type of exchange central office providing the service and is subject to the availability of facilities.

- b. CLASS Services include the following:

(1) Teen Service

This service allows the assignment of two separate directory numbers (one primary and one secondary) to a single-party line. Incoming calls to separate directory numbers are identified by a distinctive ringing cadence. The teen service rate includes one directory listing for the primary directory number or the secondary number. Both numbers can be listed as well with tariffed additional listing charges applying. All billing is to the primary directory number.

Custom calling services are available with teen service at applicable tariff charges. Call waiting is available to both primary and secondary directory numbers. Distinctive call waiting tones indicate which directory number is being called. Call forward, which must be activated from the primary directory number, is available in two formats: all incoming calls can be forwarded to the call forward destination or calls only to the primary directory number can be forwarded while calls to the secondary number continue to ring at the base station. The call forward format is determined by service order.

CLASS SERVICES

B. REGULATIONS (continued)

1. Definitions (continued)

b. CLASS Services include the following: (continued)

(2) Automatic Callback

This service allows the subscriber, by entering the automatic callback activation code, to re-originate a call to the last-dialed directory number without having to redial the directory number. This can be accomplished regardless of whether the call was answered, unanswered or busy. If the called directory number is busy, automatic callback continues for 30 minutes, until cancelled, or until the called number is idle. When both lines are idle, the calling party receives a special ring. When the calling party picks up, the called party's line rings. Automatic Callback can be cancelled by dialing the automatic callback deactivation code.

(3) Automatic Recall

This service allows the subscriber, by entering the automatic recall code, to recall the last incoming call. The directory number plus time and date call was received is announced to the subscriber who can then choose whether or not to continue with the service. If the last incoming number is private, the subscriber will be informed that the number is private, but can still continue with the service. This can be accomplished regardless of whether the call was answered, unanswered or busy. If the called number is busy, automatic recall continues for 30 minutes, until cancelled, or until both lines are idle. The calling party receives a distinctive ring when both lines are idle. When the calling party picks up, the called party's line rings. Automatic recall is cancelled by entering the automatic recall deactivation code.

CLASS SERVICES

B. REGULATIONS (continued)

1. Definitions (continued)

b. CLASS Services include the following: (continued)

(4) Calling Number Delivery

This service identifies the 10-digit directory number of the calling party to be displayed on a telephone set or adjunct display after the first ringing cycle. The date and time of the incoming call is also displayed. For calls from a multi-line hunt group, only the main telephone number will be delivered. If the calling telephone number is not available for delivery, an indication that it is a private number will be displayed to the called party. (See note below)

(5) Dialable Number Delivery

This service displays the directory number of the calling party to the subscriber as with Calling Number Delivery, however, rather than a 10-digit directory number being displayed, only the digits necessary for the subscriber to return the call are displayed along with the date and time. (See note below)

(6) Calling Name Delivery

This service displays the directory name associated with the incoming directory number as well as the date and time on the telephone set or adjunct unit after the first ringing cycle. The first 15 characters of the directory listed name will be displayed, beginning with last name. This service is offered in conjunction with Calling Number Delivery and Dialable Number Delivery. This feature cannot be offered as a stand alone feature due to the fact that several subscribers have the same name and it would be impossible to distinguish as to which subscriber placed the call. (See note below)

(6A) Caller ID On Call Waiting

This service enables a customer to see the OF KENTUCKY id information while on an existing call. For this EFFECTIVE to work the customer must subscribe to call waiting and Calling Number Delivery or Dialable Number Delivery or Calling Name Delivery. Also their CPE would have to be capable of receiving this information.

CLASS SERVICES

B. REGULATIONS (continued)

1. Definitions (continued)

b. CLASS Services include the following: (continued)

Note:

Any customer subscribing to any of the four above services will be responsible for the provision of a display device which will be located on the customer's premises. The installation, repair and technical capability of that equipment to function in conjunction with these features specified herein will be the responsibility of the customer. The company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.
(This note originally appeared on Sheet 5 Section IX)

(T)

(T)

(7) Call Block

This service allows the subscriber to program a list of up to 31 directory numbers from which calls are to be rejected. The subscriber can also enter the last incoming call into the call block list without knowing the number. Call Block is activated and deactivated by use of the appropriate access codes. Programming is accomplished through the keypad. Rejected incoming calls are routed to an announcement informing the caller that the called party does not wish to receive the call.

(8) Distinctive Ringing/Call Waiting

This service allows the subscriber to program a list of up to 31 directory numbers from which incoming calls are identified by a distinctive ringing pattern. If the subscriber also subscribes to Call Waiting and is engaged in a conversation, a distinctive call waiting tone accompanies the incoming call from the selected directory numbers. All other incoming calls ring normally. The service is activated and deactivated by use of the appropriate access codes. Programming is accomplished through the keypad.

CLASS SERVICES

B. REGULATIONS (continued)

1. Definitions (continued)

b. CLASS Services include the following: (continued)

(9) Selective Call Forwarding

This service allows the subscriber to program a list of up to 31 directory numbers from which incoming calls are to be forwarded to another location. This service is activated and deactivated by use of the appropriate access codes. Programming of the directory number list as well as the forward-to-number is accomplished by using the keypad. Incoming calls that are not from directory numbers on the edit list continue to ring at the base station. A ring reminder is available at the base station to alert the subscriber that Selective Call Forwarding is activated.

(10) Avoid-A-Call

This service allows the subscriber to program a list of up to 31 directory numbers from which incoming calls are to be accepted. An incoming call from a directory number not included on the edit list is routed to an announcement that the called party does not wish to receive the call. This service is activated and deactivated by entering the appropriate access codes and programming is accomplished using the keypad.

(10a) Anonymous Caller Rejection (ACRJ)

This feature allows subscribers with or without Calling Number Delivery and/or Calling Name Delivery to reject calls for which calling name/number display information has been intentionally blocked. Only calls for which the information has been blocked are rejected.

PUBLIC SERVICE COMMISSION

SECTION 9(1)

BY: Jordan C. Neal
FOR THE PUBLIC SERVICE COMMISSION

If the display information is not available due to network restrictions or other reasons, the receiving customer premise equipment (telephone or adjunct) if equipped is presented with a message to indicate the unavailability of the calling information. Anonymous Caller Rejection is activated and deactivated by use of the appropriate access codes. Programming is accomplished through the keypad.

Rejected incoming calls are routed to an announcement informing the caller that the called party does not wish to receive the call. Anonymous Caller Rejection can be overridden by an operator in case of emergency.

CLASS SERVICES

B. REGULATIONS (continued)

1. Definitions (continued)

b. CLASS Services include the following: (continued)

(11) Calling Number/Name Delivery Blocking-Per Call

This service enables a customer to prevent their telephone number or name on a per-call basis from being seen by someone with Calling Number/Name Delivery service or from being announced to someone with Automatic Recall or Avoid-A-Call Service. When this feature is activated before a call, a private status message will be sent instead of the number. This service will be available without pre-subscription.

(12) Calling Number/Name Delivery Blocking-Per Line

This feature enables a customer to make all calls with the delivery of their calling number marked as "private." The feature is applicable on all outgoing calls placed from the customer's line; however, if the pre-assigned activation code for Calling I.D. Blocking-Per Call is dialed on the line, the calling number/name may be delivered.

This service is only available upon request to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted including those at the residences of employees/volunteers where the head of the agency certifies to Telephone Company management a need for blocking upon health and safety concerns: (a) Non-profit, tax exempt, private and public social welfare agencies such as domestic violence intervention agencies, (b) federal, state and local law enforcement agencies.

Operator services and 911 services take precedence over Calling Number Blocking-Per Call and Per Line service with all calling numbers available regardless of the privacy status.

B. REGULATIONS (continued)

2. Conditions

- a. CLASS features are furnished in association with individual line service only.
- b. CLASS features may be provided in connection with foreign exchange service.
- c. CLASS features are not available on any Private Automatic Branch Exchange System.
- d. The service is subject to available facilities and limited to central offices specifically equipped to provide such services.
- e. CLASS services are applicable only to calls placed to/from compatible central offices, with compatible connecting trunks.
- f. Operator assisted calls are designed to override the feature calls for emergency services.
- g. Coin phones will not be equipped with CLASS features. They will operate with the CLASS features, however, and interaction with all the features will be permitted.
- h. Calling Number/Name Blocking-Per Line is available upon request at no charge, as set forth in B.1.b.(12) of this Tariff.
- i. The Company will deliver all numbers, subject to technical limitations, including telephone numbers associated with Non-Published and Non-Listed numbers as described in PART II Sheet 33.6 of this Tariff.
- j. The Company shall not be liable to any person for damages of any nature or kind arising out of, or resulting from, or in connection with the provision of the services, including without limitations, the delivery or non-delivery of calling numbers or calling names.
- k. Telephone numbers transmitted via Calling Number Delivery as described in B.1.b.(4) and Calling Name Delivery as described in B.1.b.(6), are intended solely for the use of the subscriber. Resale of this information is prohibited by this tariff.

ISDN SERVICES

A. APPLICATION OF TARIFF

1. This tariff applies to Integrated Services Digital Network "ISDN Services" furnished by the Brandenburg Telephone Company.

B. REGULATIONS

1. Definitions

- a. ISDN services are optional services offered in addition to regular exchange service to those subscribers served by central offices so arranged to provide ISDN services. ISDN Services and features available depends upon the type of exchange central office providing the service and is subject to the availability of facilities and facilities capable of transmitting digital signals.
- b. ISDN transmissions cannot be completed to central offices that are connected by trunks that are not compatible to transmitting ISDN services.
- c. ISDN transmissions cannot be completed to central offices that are not equipped to provide ISDN services.
- d. The Telephone Company will provide ISDN services to the Network Interface Device (NID) normally located outside of the customer premise. It is the customer's responsibility to provision the circuit from there and provide Customer Premises Equipment (CPE) that is compatible.
- e. ISDN Basic Rate Interface (BRI) will be provided where local loops do not exceed 14,000 feet in length or a maximum 34db as measured at the customers premises. Where these conditions cannot be met, the customer must subscribe to Individual Line Loop Extension.
- f. Individual Line Loop Extension is required when service is requested beyond the nominal ISDN BRI loop length of 18K'. ISDN Individual Line Loop Extension Extends ISDN BRI Service to those customers that are beyond 18K' but within 36K'. The extension of the ISDN BRI loop can only be accomplished once by this method. See Rates this section of tariff for charges for Individual Line Loop Extension.

ORIGINAL SHEET 4

ISDN SERVICES

(N)

B. REGULATIONS (continued)

1. Definitions (continued)

- g. Due to the fact that the outside plant loop will need to be modified to accommodate ISDN services (remove load coils, add loop extension etc). The period from the time service is ordered until service is turned up may be longer than required for regular one party service.
- h. A single primary director number (DN) is included with ISDN Services. Secondary directory numbers may be purchased as provided in Section IX under teen service of this Tariff.
- i. Directory Listings will be furnished subject to rates and regulations specified in other sections of this Tariff.
- j. Service charges as specified in Part II of this Tariff apply in addition to the charges provided in Rates in this section of the Tariff.
- k. ISDN Services is a new offering of Brandenburg Telephone Company. The possibilities and the complexity of this offering are great. Should there be a difference of opinion between the customer and the company as to the offerings of this tariff, the company reserves the right to file a clarification to these rules and regulations subject to commission approval.
- l. CLASS Service, Custom Call Services and other services as shown in other sections of this Tariff may be ordered for ISDN service if they are compatible to ISDN services. Rates for those services from those sections of the tariff shall apply.
- m. Suspension of service as shown in part II of this Tariff shall not apply to ISDN service.
- n. All rules and regulations shown in other parts or sections of this tariff, when not in direct conflict, shall apply to Section X ISDN Services.

ISDN SERVICES

(N)

B. REGULATIONS (continued)

1. Definitions (continued)

- o. Packet switching is used to establish a connection between two data devices. However, a packet switched connection is "virtual" not dedicated. Instead of establishing a dedicated connection between two devices, routing information for a packet switched call resides in the network memory. Packet Switching (the D-Channel) of data will be available only from those exchanges that are connected to a Packet Switch Network.
- p. Basic Rate Interface (BRI) operates over a two-wire facility and provides two B-channels and one D-channel (2B+D) for each facility. The two 64Kb/s B-channels operate along with a single 16Kb/s D-channel and 16Kb/s of overhead for a total transmission rate of 160 Kb/s. This allows a total of up to eight devices per line. Both B-channel devices can operate simultaneously, but the six D-channel devices must share the channel on a first come, first served basis.
- q. Basic Rate Interface (BRI) operates over two-wire facilities the same as existing one-party business and one-party residence lines. Therefore, a one-party business or one-party residence rate (whichever is applicable) as shown in Part III of this Tariff shall apply.

C. Rates

The following monthly rates and non-recurring charges apply to ISDN services and are in addition to the rates and charges applicable to the associated service, equipment and facilities.

	<u>Monthly Rate</u>	<u>Non-recurring Charges</u>
1. Basic Rate Interface (BRI) (2B+D)	\$46.00	\$70.00
2. Individual Line Loop Extension	\$19.00	\$60.00
3. Primary Rate Interface (PRI) (23B+D)	\$845.00	\$95.00
4. The above rates are assumed usage. They are assumed to be 200 hours per month per B-Channel. At this time, Brandenburg Telephone Company does not have the capability to measure minutes of use. At the point in time when Brandenburg Telephone Company becomes capable of measuring minutes of use, all usage above 200 hours per month per channel will be billed at \$0.01 per minute of use.		
5. Regular Service Connection Charges appearing in Part II of this Tariff shall apply in addition to the non-recurring charges shown above. The non-recurring charges above are to compensate for the additional time, skills and testing required for the installation of digital service.		
6. Charges for changing of directory listing, collecting of late or non-payment shall be those charges as shown in Part II of this Tariff.
